Introduction

UrbanGrid Real Estate Consultancies L.L.C. is a forward-thinking **RERA Regulated** consulting firm registered in the United Arab Emirates specializing in real estate, property management, and asset condition evaluation. Our team is composed of highly skilled surveyors and engineers with in-depth expertise in delivering tailored solutions for property owners and stakeholders. We pride ourselves on offering a full suite of services, from asset management and building condition assessments to energy audits and long-term maintenance planning.

At UrbanGrid, we leverage cutting-edge methodologies and industry best practices to help clients enhance the value and longevity of their properties. Our commitment to quality, transparency, and innovation ensures that every project is completed to the highest standards, providing clients with the clarity and insight needed to make informed decisions. Whether you are looking to optimize building operations, maintain regulatory compliance, or future-proof your assets, UrbanGrid is your trusted partner in real estate consultancy.

Our Certification

UrbanGrid is proud to be an **InterNACHI-certified** organization, ensuring the highest standards in inspection and quality assurance. Our certification reflects our commitment to professionalism, expertise, and industry best practices.

Additionally, UrbanGrid is a **registered entity in the United Arab Emirates**, operating in full compliance with local regulations and industry standards. Our registration reinforces our credibility and reliability in delivering top-tier services.

Proposal Overview

UrbanGrid Real Estate Consultancies L.L.C. is pleased to propose a comprehensive **Home Condition Audit** for your property **(5 Bed, 5,812 sq.ft) in Lea, Yas Island, Abu Dhabi, United Arab Emirates**. UrbanGrid is a trusted provider of condition surveys, commonly known as snagging, in the United Arab Emirates. Our services are designed to ensure that properties meet the highest quality standards, giving property owners peace of mind and confidence in the condition of their investments.

Our expert team conducts a comprehensive audit of the property, identifying any construction defects, incomplete works, or deviations from specifications, and provides a detailed snagging report. This report includes photographic evidence, descriptions of defects, and actionable recommendations for rectifications.

UrbanGrid's commitment to excellence ensures that your property meets the highest industry standards, providing you with assurance and protecting your investment.

Scope of Work

- **Property Inspection:** A comprehensive inspection of the property will be conducted to assess the condition of all structural elements, finishes, and systems.
- **Data Collection and Analysis:** We will collect and analyze data on defects and incomplete works.
- **Issue Identification and Classification:** Any defects or issues will be identified and categorized based on severity and required corrective actions.
- **Report Preparation:** A detailed report outlining the inspection findings, with photos and defect criticality rating, will be prepared.

Inspection Methodology

1. **Identification:** Identify specific areas and systems in the property that require inspection.
2. **Inspection:** Conduct a thorough on-site inspection to document any issues or defects.
3. **Classification:** Organize defects and issues into categories based on severity and urgency.
4. **Documentation:** Compile all findings and recommendations into a comprehensive snagging report.

Specialized Tools

- A thorough visual inspection will be conducted, covering both the interior and exterior areas of the property.
- The operational status of essential systems and equipment will be visually assessed using specialized tools such as **thermal imaging cameras, moisture meters, hygrometers, socket testers e.t.c.** Some of these tools are displayed below.

- The inspector will consult with property staff to understand routine operational procedures and maintenance practices, where required.
- A desk-based review of available property documentation will be performed to support the visual assessment and provide context for any findings (if required).

Inspection Checklist

The following is a comprehensive inspection checklist that would be referred during the inspection. This checklist is designed to outline the areas and potential issues covered during the visual inspection. UrbanGrid uses specialized software systems to implement this checklist ensuring every defect is captured.

1. Structural Inspection

Walls and Ceilings

- Inspect for cracks, uneven surfaces, and paint defects.
- Check for signs of dampness, mold, or water staining using a moisture meter.

Floors

- Verify floor levels, surface finishes, and the presence of any cracks or gaps.
- Assess the integrity of tiling and grout.

Roof and Ceiling Structure

- Identify leaks, insulation deficiencies, and potential structural weaknesses, using a thermal imager where applicable.
-

2. Electrical System

Socket Outlets and Switches

- Test functionality, proper grounding, and load capacity using a socket tester.

Lighting Fixtures

- Check for correct installation, alignment, and proper operation.

Electrical Panels and Wiring

- Perform a visual inspection to assess wiring quality and detect any signs of overheating.
-

3. HVAC System

Air Conditioning Units

- Confirm unit performance, temperature control, and the presence of any leaks.
- Use a thermal imager to inspect duct insulation and identify air leaks.

Ventilation

- Check for blockages, evaluate air quality, and verify the operation of exhaust fans.

Hygrometry

- Use a hygrometer to measure humidity levels throughout the property.
-

4. Plumbing System

Pipes and Drains

- Check for leaks, blockages, and adequate insulation.
- Use a borescope to inspect hard-to-reach areas.

Fixtures and Faucets

- Inspect for proper function, leaks, and appropriate water pressure.

Water Heaters and Boilers

- Verify installation quality, operational performance, and signs of corrosion.
-

5. Windows and Doors

Frames and Locks

- Ensure correct alignment, proper sealing, and reliable operation of locks and latches.

Glazing and Seals

- Inspect for cracks, deteriorated sealant, and potential heat loss using a thermal imager.

Operation

- Check for smooth opening and closing, and identify any air or water infiltration.
-

6. Interior Finishes

Paintwork and Surface Finishes

- Inspect for consistency, bubbles, cracks, or other surface defects.

Joinery and Woodwork

- Assess cabinetry, doors, and frames for alignment, finish quality, functionality, and overall workmanship.

Tiling and Grouting

- Check for cracks, gaps, or discoloration.
-

7. Exterior Elements

Façade

- Inspect for cracks, moisture damage, and consistency of paint or finishing materials.

Roof Covering

- Check for wear, signs of water ingress, and potential insulation problems.

Outdoor Fixtures and Electrical Points

- Inspect exterior lighting, sockets, and structural elements exposed to weather.
-

8. Water and Moisture Assessment

- Use moisture meters and hygrometers to assess dampness in vulnerable areas such as basements and bathrooms.

- Identify areas prone to condensation or moisture accumulation that could impact structural integrity.

9. Thermal Imaging Analysis

- Detect insulation deficiencies, air leakage, and moisture presence in walls, ceilings, and floors.
- Assess HVAC performance and identify any overheating electrical components.

Deliverables

1. Comprehensive Snag Report

Including high-resolution defect photographs, defect classifications, and criticality ratings.

Commercial Proposal:

Description	Quote (AED)
Home Condition Audit - Stage 1 (Snagging)	AED 2,500.00
Sub-Total	AED 2,500.00
VAT (5%)	AED 125.00
Grand Total	AED 2,625.00

Description	Quote (AED)
Home Condition Audit - Stage 2 (Desnagging)	AED 1,200.00
Sub-Total	AED 1,200.00
VAT (5%)	AED 60.00
Grand Total	AED 1,260.00

UrbanGrid is ***RERA regulated***, and our inspectors are highly experienced *professionals*. We uphold strict standards, ensuring uncompromising inspection quality. Trust us for reliable, thorough assessments every time.

Report Delivery

Following the inspection, UrbanGrid will deliver a comprehensive snagging report within a maximum of **1 - 3 working days**. The report will detail all identified defects, supported by photographs and descriptions. The report will be structured to enable easy reference and will serve as a guide for ensuring that all necessary repairs and corrections are made by the developer.

Payment Terms:

An initial payment of **50% of the contract value is required upon order confirmation**. Once the inspection is completed, the remaining 50% must be paid prior to the delivery of the final report of the corresponding stage. The report will be released to the client upon receipt of the full payment.

Authorization & Acceptance:

By signing below, the Client confirms that they have reviewed and accepted the scope, terms, and pricing outlined in this proposal submitted by **UrbanGrid**. This agreement signifies the Client's intent to proceed with the services as detailed, and authorizes UrbanGrid to initiate planning and delivery accordingly.

This proposal, once signed, shall serve as a binding agreement between the Client and UrbanGrid.

Date: _____

Frequently Asked Questions

- **Inspection Timing:** The inspection will be carried out on weekdays between 8:00 AM and 6:00 PM.
- **Access:** The client is responsible for coordinating access with relevant parties.
- **Permits and Equipment:** Necessary permits and equipment must be provided by the client.
- **Utilities:** All utilities must be connected and operational.
- **Delays:** Delays due to access restrictions or unavailability may result in additional costs. Projects within 2 hours prior to the scheduled inspection time is subject to an AED 100 penalty.
- **Specialized Surveys:** Specialist surveys and tests such as concrete core test, depth of carbonation test e.t.c. are excluded from this inspection.
- **Documentation:** Documentation must be available for review before conducting the survey.

General Business Terms & Conditions

These General Terms of Business are provided to clarify the basis on which we operate for our clients. They apply to all services offered by UrbanGrid Real Estate Consultancies L.L.C. ("UrbanGrid") and are to be read in conjunction with any appointment-specific correspondence, including any additional terms imposed by the relevant department handling your project. Any such additional terms will be provided to you before your instructions are confirmed.

These General Terms of Business, any additional terms, and the appointment correspondence will form the contract ("The Contract") between you ("Client") and UrbanGrid unless amended in writing.

1. Our Relationship with You

1.1. In this document and elsewhere, "UrbanGrid", "we", "our", and "us" refer to UrbanGrid Real Estate Consultancies L.L.C. The term "partner" refers to a member of UrbanGrid and does not imply a legal partnership.

1.2. Your contract is solely with UrbanGrid, and no individual member, employee, agent, or consultant will assume personal legal liability for work performed. Any communication signed by individuals is done so on behalf of UrbanGrid, without assuming personal liability.

1.3. The services we provide are confidential and intended solely for you, the client, unless prior written consent is obtained to share this information. UrbanGrid will not be held liable to any third party for the work carried out on your behalf.

1.4. You are responsible for ensuring the accuracy of the information and documentation provided. UrbanGrid will not be liable for any losses or errors arising from false, incomplete, or misleading information supplied.

1.5. Upon completion of our services, relevant files may be stored for up to 12 years from the date of final invoicing. After this period, we retain the right to destroy these files unless otherwise agreed.

2. Responsibility for Work

2.1. We will provide our services with reasonable professional skill and care. A designated Client Partner will oversee your project, with work delegated as necessary to other qualified team members, ensuring efficiency and appropriate expertise.

3. Fees

- 3.1. Fees will be outlined in the appointment correspondence.
- 3.2. In addition to professional fees, you may be responsible for repaying disbursements and expenses incurred on your behalf. We may request an upfront payment or immediate reimbursement.
- 3.3. UrbanGrid does not pay interest on monies held for fees or disbursements.
- 3.4. Invoices are due upon receipt, and interest at 6% per month may be charged for non-payment after 45 days. Further work may be suspended until all outstanding amounts are paid.
- 3.5. Should legal action be required to recover outstanding fees, the client agrees to cover any reasonable costs incurred.
- 3.6. A charge of AED 500 will apply to any dishonoured cheque.
- 3.7. If fees are to be paid by a third party, you remain liable if they fail to pay within 30 days.

4. Data Protection

- 4.1. UrbanGrid complies with Data Protection legislation and ensures the confidentiality of our clients' affairs.
- 4.2. Client information may be shared within UrbanGrid to fulfil your instructions or for promotional purposes unless otherwise instructed.

5. Copyright

- 5.1. UrbanGrid retains the copyright and ownership of all documents, reports, and records produced in connection with your work.

6. Complaints Procedure

- 6.1. UrbanGrid follows a formal complaints procedure, details of which can be obtained from your Client Partner. We expect most issues to be resolved amicably.

7. Applicable Law & Jurisdiction

- 7.1. UAE law applies to all instructions, and UAE courts shall have jurisdiction over any disputes.

8. Liability

- 8.1. The maximum liability in relation to our work will be outlined in the appointment correspondence.
- 8.2. If no amount is specified, liability will be limited to outstanding fees and will not exceed USD 1 million.
- 8.3. These liability limits apply regardless of the number of individuals comprising our client for any instruction.

8.4. These limitations do not apply to deliberate or willful default, nor to damages for death or personal injury.

8.5. Claims may be brought only against UrbanGrid, not against individual employees, members, or agents of the company.

8.6. UrbanGrid will not be liable for any indirect, consequential loss or delay caused by events beyond our reasonable control.

8.7. Any liability will account for other parties' contributory negligence or responsibilities, regardless of those parties' financial status or liability limitations.

9. Regulation

9.1. We may be obliged to request evidence of identity for new clients under money laundering regulations.

9.2. UrbanGrid may be required to disclose information to regulatory authorities under certain conditions, without client notification.

10. Miscellaneous

10.1. No variation to these terms shall be binding unless agreed in writing.

10.2. By instructing UrbanGrid, you acknowledge that you have not relied on any representations not explicitly provided in The Contract.

10.3. If any provision of The Contract is deemed invalid, the validity of the remaining terms will not be affected.
